For more information on firearms safety devices or classes please contact:
Shasta County Sheriff’s Office
(530) 245-6025

Sponsored by Shasta County Health and Human Services Agency in Conjunction with our many community partners and advisory boards. Funding for this project is provided through the Mental Health Services Act.
1. Treat every firearm as if it were loaded.
   It might be, even if you think it isn’t.

2. Always point the muzzle in a safe direction.
   Keep control of the direction of the muzzle at all times.

3. Be sure of your target and beyond.
   Be aware of the target and what surrounds it. Know the identifying features
   of the game you hunt. Make sure you have an adequate backstop—don’t
   shoot at a flat, hard surface or water.

4. Keep your finger outside the trigger guard until you’re
   ready to shoot.
   This is the best way to prevent an accidental discharge.

5. Check your barrel and ammunition.
   Make sure the barrel and action are clear of obstructions, and carry only the
   proper ammunition for your firearm.

6. Unload firearm when it is not in use.
   Leave action open; carry firearm in a case and unloaded to and from the
   shooting area.

7. Point a firearm only at something you intend to shoot.
   Avoid all horseplay with a gun.

8. Don’t run, jump, or climb with a loaded firearm.
   Unload a firearm before you climb a fence or tree, or jump a ditch. Pull a
   firearm toward you by the butt, not the muzzle.

9. Store firearms and ammunition separately and safely.
   Store each in secured locations beyond the reach of children and careless adults.

10. Don’t drink alcoholic beverages before or during
    shooting.
    Also do not use mind- or behavior-altering medicines or drugs.

11. Consider additional safety precautions if a family
    member may be suicidal.
    When an emotional crisis (such as a breakup, job loss, legal trouble) or a
    major change in someone’s behavior (depression, violence or heavy drinking)
    causes concern, storing guns outside the home for a while may save a life.
    Friends as well as some shooting clubs, police departments or gun shops
    may be able to store them until the situation improves.

PROGRESS IN SAFETY

Over the past 20 years, unintentional gun deaths in Shasta County have
averaged less than one per year, thanks largely to increased awareness of
gun safety. Unfortunately, the county still has a tragically high number of
suicide deaths by firearms - more than 400 in the same 20 years.

The first step to reduce this number is to follow the 11 commandments of
gun safety. The latest addition addresses suicide prevention. Firearms are
the leading method of suicide in Shasta County. Suicides far outnumber
homicides in Shasta County (in 2009 there were 22 firearm suicide deaths and
1 firearm homicide).

If a family member is going through a rough time, make sure he or she
can’t get to your guns. To learn ways to get help for your loved one, call the
National Suicide Prevention Lifeline: 1-800-273-TALK (8255).
